

Topline Senior

For senior horses to address dietary challenges, hard keepers, or horses having difficulty maintaining body condition. **Topline Senior** uses the latest in HIGH NUTRIENT pellet technology and contains hemp seed meal, HempOlive™ oil, whole oats, vitamin & mineral premix, added amino acids, enzymes and contains high levels of omegas.

Topline Pellet Technology Benefits:

- » We use a mechanical process involving high temperatures over extremely short times, which minimizes nutrient loss while improving the digestibility of the pellet. The pellet process helps to break down the structures of the low starch and carbohydrates, resulting in a “gelatinization” of starch & carbs and unfolding of proteins, helping to improve digestion in the small intestine, lessening the likelihood of starch & carbs reaching the hindgut.
- » Our pelleted feed is uniform, soft and easy to chew.
- » Our pelleted feed typically contains little dust, making it a good option for horses with respiratory concerns.
- » Our pelleted feeds tend to have longer shelf lives after opening the bag.

Targeted Benefits:

- » 14% crude protein from hemp seed meal and HempOlive™ oil
- » An extruded feed designed to encourage chewing and saliva production that helps to buffer stomach acids to help prevent gastric ulcers

Feeding Instructions:

Feeding rate should be adjusted to the activity and performance of the horse and offered as a component of a balanced ration including good quality forage and clean water. Always consult your equine nutritional specialist and/or your veterinarian.

Topline Senior

Feeding Guidelines

Application: For Senior Horses to address dietary challenges, hard keepers, or horses having difficulty maintaining body condition

450 kg horse: 0.5 to 1.0% of body weight per day
2.25 to 5.4 kgs total per day

Topline full feed rations should be split into two feedings per day

Typical Feed Analysis

Crude Protein	14.00%	Zinc	250 mg/kg
Crude Fat(min)	4.50%	Cobalt	0.18 g/kg
Crude Fiber (max)	12.00%	Selenium (added)	0.35 mg/kg
Sodium	0.40%	Vitamin A (min)	12,000 IU/kg
Calcium	1.00%	Vitamin D (min)	2000 IU/kg
Phosphorus	0.60%	Vitamin E (min)	125 IU/kg
Magnesium	0.20%	Thiamin	10 mg/kg
Iodine	0.45mg/kg	Riboflavin	7 mg/kg
Copper	40 mg/kg	Pyridoxine	7 mg/kg
Manganese	150 mg/kg	Biotin	4.5 mg/kg

Added Supplements:

Magnesium, Calcium, Ascorbic Acid, Comfrey leaf powder, Turmeric powder
